## Description

Polimac Company Ltd. (headquartered in Sarajevo, Bosnia and Herzegovina) provides professional consulting services in the fields of infrastructure, tunnels, bridges, highway, construction, engineering, transport, telecommunications, water supply, geodesy, geomchanic, photogrammetry, thermo and hydro power plants. We work with companies that want to tackle B&H market and markets of other former Yugoslav countries and need help to do so successfully. Our strengths are expert consultants, undisputable professionalism, and proven experience. We analyse information, set priorities, assist on project selection, implement solutions and effectively support your project needs. We do the project management, manage the risk and circumference with you. We supervise the project; we plan and do everyday activities and administration. The mission of Polimac Company is to develop innovative solutions in the future and to preserve its independence, unique offer and international experience. The highest quality of the company Polimac Company is the desire for constant advancement, and education, applying the latest technological and organizational solutions in the work and communication with clients.
